

I have reviewed each of the selected peer review panel member's (Florie Caporuscio, John Gibbons, Eric Oswald, and Chunhong Li) backgrounds and employment histories. I have also interviewed each of them to determine if they have any organizational conflict of interest or a bias for, or against, the WIPP facility as a nuclear waste repository. Through these background investigations and interviews I have determined that none of the selected peer review panel members has a bias or an organizational conflict of interest related to the Salado Flow Conceptual Models Peer Review.
