For Immediate Release **Westinghouse TRU Solutions LLC Earns Small Business Program Award**

CARLSBAD, N.M., July 10, 2001 – Westinghouse TRU Solutions LLC (WTS) was recognized recently by the U.S. Department of Energy (DOE) with the Outstanding HUBZone Business Achievement Award. WTS was selected for the award by DOE's Secretarial Small Business Program

“This award is a reflection of our commitment to DOE's Small Business Program to provide opportunities for small business concerns,” said John Lee, WTS General Manager. “I am proud of the work our procurement group does in this regard.”

WTS was selected to receive the HUBZone Business Achievement Award based on the amount of money the company spent and the percentage of purchases it made in HUBZones during fiscal year 2000. The award was presented to WTS during the Second Annual DOE Small Business Conference June 20 in Las Vegas, Nevada.

The purpose of the HUBZone Program is to provide federal contracting assistance for qualified small businesses located in underutilized business zones. The HUBZone program works to increase employment opportunities in these areas, as well as stimulate capital investment and empower communities through economic leveraging. For more information on HUBZones, visit the program's Web site at <http://www.sba.gov/hubzone>.

WTS is the management and operating contractor for DOE at the Waste Isolation Pilot Plant.
