Curtis C. Wynne Earns Certification as Safety Professional

CARLSBAD, N.M., May 24, 2001 – Curtis C. Wynne of Westinghouse TRU Solutions LLC (WTS) has earned designation as a Certified Safety Professional (CSP).

Wynne, a native of Carlsbad, has been a Westinghouse employee since 1992. WTS is the management and operating contractor for the U.S. Department of Energy at the Waste Isolation Pilot Plant.

The CSP designation meets the highest national standards for certification and is accredited by the Council of Engineering and Scientific Specialty Boards and the National Commission for Certifying Agencies.

The certification is granted by the Board of Certified Safety Professionals, a nationally recognized board sponsored by the American Society of Safety Engineers, the American Industrial Hygiene Association, the Institute of Industrial Engineers, the National Safety Council, the Society of Fire Protection Engineers and the System Safety Society. Prior to entering the certification program, candidates must show fulfillment of educational and experience requirements.

Wynne attended the New Mexico Institute of Mining and Technology in Socorro, New Mexico, and holds a bachelor of science degree in mathematics from the College of the Southwest in Hobbs, New Mexico. He has served Westinghouse in the fields of program management, technical communications and safety. Prior to joining Westinghouse, Wynne was managing editor for the *Carlsbad Current-Argus* and served as a safety engineer in the local potash mining industry.

Wynne and his wife, Cherie, live in Hobbs.
