H-1d	Beyond these core courses, training is designed and implemented relevant to the specific job functions being performed. For example, employees who operate key pieces of equipment <u>necessary to manage Contact-Handled (CH) TRU or Remote-Handled (RH) TRU mixed waste</u> (such as forklifts, hoists, <u>bridge cranes, cask transfer cars,</u> etc.) must be trained to operate and inspect equipment and to recognize maintenance problems before a specific job function is performed. - <u>Waste handling personnel performing CH or RH TRU mixed waste handling tasks will be qualified to the applicable specific equipment or system qualification card on file at the WIPP facility.</u>	Change needed to add RH TRU mixed waste management activities and equipment to training program.
