Comment#	*	Location	Comment	Accept	Reject		Accept	Reject
1	N	Entire Document	Below are my comments based on a review of the WIPP PA Validation Document for BRAGFLO Version 6.00. The electronic version of which was supplied to me by Dan Clayton on 03/05/2007. I have conducted an independent technical review to the best of my ability. Due to the extensive nature of the document (1,727 pgs.) and time constraints, I reviewed the text portion (pgs. 1 thru 160) and conducted spot checks of the Appendices (pgs. 161 thru 1727) and computer files residing in the CMS library (LIBBF). None of comments are considered mandatory but all warrant serious consideration and a response or comment.					
2	N	Entire Document	The date on the cover page and in the page headings is February 2007. I checked with Mario earlier on this and he said the date is supposed to be the date that the report is finally submitted, currently an unknown, so it will be filled in latter.	X		Date adjusted to April 2007	X	
3	Y	Section 6.10.3 Input Files pg. 107	Sentence reads in part as: "…ASCII file, BF2_QB0600_TEST10_INP.DIF (Figure 6.10.1). As seen in Figure 6.10.2,…" In the above sentence Figure 6.10.1 should be Figure 6.10.2.	X		Changed	X	
4	Y	Section 6.14.4.5 Cellulosics Microbial Degradation Dependent Chemistry Rates pg. 144	Definitions read as: q_{rsulf} = calculated in Equation 9.14.15, q_{rcarb} = calculated in Equation 9.14.15. Should be Equation 6.14.5.	X		Changed	X
