
FOR FURTHER INFORMATION CONTACT: Betsy Forinash, Scott Monroe, or Sharon White; telephone number (202) 564–9310; address: Radiation Protection Division, Center for the Waste Isolation Pilot Plant, Mail Code 6602–J, U.S. Environmental Protection Agency, 401 M Street S.W., Washington, DC 20460. For copies of the Compliance Application Review Documents supporting today’s action, contact Scott Monroe. The Agency is also publishing a document, accompanying today’s action, which responds in detail to significant public comments that were received on the proposed certification decision. This document, entitled “Response to Comments,” may be obtained by contacting Sharon White at the above phone number and address. Copies of these documents are also available for review in the Agency’s Air Docket A–93–02.

SUPPLEMENTARY INFORMATION:

Table of Contents
I. What is the WIPP?
II. What is the purpose of today’s action?
III. With which regulations must the WIPP comply?
IV. What is the decision on whether the WIPP complies with EPA’s regulations?
V. What information did EPA examine to make its decision?
VI. In making its final decision, how did EPA incorporate public comments on the proposed rule?
VII. How did EPA respond to general comments on its proposed certification decision?
VIII. How did EPA respond to major technical issues raised in comments?
IX. Does DOE need to buy existing oil and gas leases near the WIPP?
X. Why and how does EPA regulate the WIPP?

A. Certification Decision
B. Performance Assessment: Modeling and Containment Requirements (§§ 194.14, 194.23, 194.31 through 194.34)
I. Introduction
II. Human Intrusion Scenarios
(a) Introduction
(b) Spallings
(c) Air Drilling
(d) Fluid Injection
(e) Potash Mining
(f) Carbon Dioxide Injection
(g) Other Drilling Issues
III. Geologic Scenarios and Disposal System Characteristics
(a) Introduction
(b) WIPP Geology Overview
(c) Rustler Recharge
(d) Dissolution
(e) Presence of Brine in the Salado
(f) Gas Generation Model
(g) Two-Dimensional Modeling of Brine and Gas Flow
(h) Earthquakes
(i) Conclusion
IV. Parameter Values
(a) Introduction
(b) Distribution Coefficient (Kd)
(c) Actinide Solubility
(d) Brine Pockets
(e) Permeability of Borehole Plugs
V. Other Performance Assessment Issues
(a) Sensitivity Analysis
(b) Performance Assessment Verification Test
XII. How will the public be involved in EPA’s WIPP activities?
XIII. Where can I get more information about EPA’s WIPP activities?

A. Technical Support Documents
