**Subject:** Initial Response to Environmental Protection Agency (EPA) September 2, 2004, Letter on Compliance Recertification Application

Dear Ms. Cotsworth:

In response to the EPA's letter of September 2, 2004, the U.S. Department of Energy (DOE) is providing information that answers some of the questions included in the enclosure to that letter. DOE determined, after review of the EPA September 2, 2004, letter, that the responses to several of the items, including those that address the technical areas of concern, required additional analysis or significant effort.

DOE is investigating the technical areas of concern addressed in EPA's letter and will provide responses to these issues and the remaining questions in the November or December timeframe. The following is a summary of comments received, DOE responses in this submittal and responses still pending.

Comments Received Sept 2, 2004	Included in this Submittal	Pending
G-10 Ground water basin modeling and ground water chemistry		✓
G-11 Inclusion of omitted areas in mining transmissivity calculation		✓
G-12 Potential effects of heterogenous waste loading on chemical conditions		✓
G-13 Ligands potentially produced as aqueous metabolites		✓
G-14 Methanogenesis		✓
C-14-1 Figure 2-37 revision		✓
