[Title Not Supplied, Chemicals Listed Could  
Interact with actinides] 24. 11/20/96

Dec 29.

Dear Larry,

Tried calling but no answers.

Of the chemicals in the list, the following could interact with actinides if (a) in sufficient concentration or (b) in an organic solvent:

(a) all Group 3

(a) Group 6 - acetamide

(a) Group 18 -  $\text{NH}_4\text{SCN}$

(b) Group 19 - TFA

M-IB - Ketone

M-E - Ketone

(a) Group 31 - Picric acid

(b) Group 32 - TBP,  
TBPo.

Hope this helps.

Greg
