Photos of New WIPP Transportation Exhibit's Debut At the National Museum of Nuclear Science and History

CARLSBAD, N.M., November 9, 2011-

Photo #1 caption: A visitor takes a look at the new Waste Isolation Pilot Plant (WIPP) transportation exhibit that was unveiled November 5, 2011 in Albuquerque, N.M. at the National Museum of Nuclear Science and History. A cutaway of the TRUPACT-II, a transportation package used for shipping transuranic waste to WIPP near Carlsbad, N.M., is the centerpiece of the new exhibit. The project was an initiative between the museum, the U.S. Department of Energy Carlsbad Field Office and URS Washington TRU Solutions, LLC, the WIPP management and operating contractor.

Photo #2 caption: U.S. Department of Energy Carlsbad Field Office Interim Manager Ed Ziemianski addresses a group of visitors attending the November 5, 2011 unveiling of the Waste Isolation Pilot Plant (WIPP) Transportation exhibit at the National Museum of Nuclear Science and History in Albuquerque, N.M. The new exhibit highlights WIPP transportation components of the Department of Energy National Transuranic (TRU) Waste Program, including a cutaway of a TRUPACT-II, one of the shipping packages used to transport TRU waste to WIPP near Carlsbad, N.M.
